

# 國立交通大學應用數學系 學術演講公告

主講人：曾于恒 教授 (國立臺灣大學海洋研究所)

講 題：What you need to know about the climate model

時 間：107 年 4 月 17 日(星期二) 下午 2:00 –3:00

地 點：(光復校區) 科學一館 223 室

茶 會：當天下午 1:30 (科學一館 205 室)

## Abstract

Climate models could be defined as a mathematical representation of the climate system based on the physical, biological and chemical principles. The fundamental laws are solved numerically to obtain a solution which is discrete in space and time. However, can the state-of-the art climate models well represent the current and future changes of the earth's climate? This talk will address some issues we need to know about the climate models for anyone who may be interested in the fantasy of climate models and how we can make the best use of them.
