國立交通大學應用數學系
學術演講公告

主講人：林奕亘教授 (國立交通大學應用數學系)

講　題：Inverse problems and partial differential equations

時　間：108 年 9 月 24 日(星期二) 下午 14:00 –15:00

地　點：(光復校區) 科學一館 223 室

茶　會：當天下午 1:30 (科學一館 205 室)

Abstract

In this talk we will introduce several inverse problems, such as the famous Calder\'on problem. Roughly speaking, inverse problems investigate the question of determining the interior physical information of a medium from its boundary measurements. Furthermore, we also introduce linear, non-linear and non-local inverse problems in this talk.
