

Institute of Mathematics Academia Sinica

Employment Information 2027

Overview

Academia Sinica, located in Taipei, Taiwan, is the national academy and the leading research institution of Taiwan. The Institute of Mathematics of Academia Sinica is seeking outstanding mathematicians in all fields of mathematics for appointments beginning August or sooner, at the levels specified below. The Institute offers a flexible working environment and supports active engagement in international research. All positions are research oriented with **no teaching duties**. The institute especially encourages candidates from underrepresented groups to apply.

Research Fellows

These (tenured or tenure-track) positions are offered at the rank of assistant, associate, full, and distinguished research fellow. Candidates must be established mathematicians with strong track records in research.

Institute Research Scholars

These positions are for young mathematicians with extraordinary potential. Candidates must have received their PhD degrees before officially taking up the position. The appointment is for 3+2 years and is not renewable.

Postdoctoral Positions

These positions are for mathematicians who have received their Ph.D. degrees before officially taking up the position. The appointment is for 2+1 years and is not renewable.

Deadline

The Institute will start reviewing applications on 1 November 2026. Candidates are encouraged to submit all required materials by 1 December 2026 to ensure full consideration. Applications completed after 1 December will be evaluated on a rolling basis.

All applications must be filed online at: <https://www.mathjobs.org/jobs/IoMAS>
